float

int

long

unsigned int

...

printf

%s

%d

%lu

%lld

%f

...

Boolean Expressions

! > >= == <= < && ||

Conditions

`if else`

Loops

```
for (initialization; condition; increment) {  
    statements  
}
```

```
while (condition) {  
    statements  
}
```

```
do {  
    statements  
} while (condition);
```

Casting

()

Pointers

char *

double *

float *

int *

long *

char **

Pointers

* and &

struct

enum

Arrays

[]

Memory Management

malloc free

Objective-C

```
#import <Foundation/Foundation.h>

int main(int argc, const char * argv[]) {
    @autoreleasepool {
        NSLog(@"Hello, World!");
    }
    return 0;
}
```

Xcode

Xcode provides everything developers need to create great applications for Mac, iPhone, and iPad. Xcode 4 has been streamlined to help you write better apps. It has unified user interface design, coding, testing, and debugging all within a single window. The Xcode IDE analyzes the details of your project to identify mistakes in both syntax and logic, it can ev...
